

AROUND FIVE

Around Five A5-01

Technical instructions

Operating principle:

- Time indication by linear movement of the marker over 24 hours
- Point of return/starting of the marker : 6:00 AM
- Setting of hours and minutes using 2 buttons located under the base

Manufacturing:

- Base made of extruded and processed aluminum profile. Brushed, black anodized finish. Set on 4 feet mechanically fixed on the base.
- «Shape of time» in 6mm processed, brushed aluminum. Engraved indexes. Zaponnage in natural colour finish. Mechanically fixed on the base.
- 2mm processed, brushed aluminum marker. Zaponnage in natural colour finish. Mounted on hidden linear transmission.
- Stepper motor and sinusoidal current control with vibration damping system.
- Stainless steel battery cover.

Technical features:

- Battery supply (5x AA 1.5V). Min autonomy: 1 year
- Precision: +/- 2 sec per day
- Size (without packaging): 490 x 80 x 133 mm
- Weight (without packaging nor batteries): 1.92 kg

Maintenance care:

- Clean with soft dry cloth

Handling:

- Always handle the object holding it by the base
